REASONS TO BUY

The UHD+ display offers a significantly larger screen space with rich, accurate visuals, whether watching high-resolution videos and images or creating client presentations. Four far-field mics pick up the voices from any corner of a room when collaborating virtually.

Display options include a 4K display with Dolby Vision HDR for rich and vibrant visuals, FHD display with PrivacyGuard technology that protects on-screen data from shoulder surfers, and a WQHD option with touchscreen capabilities.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
